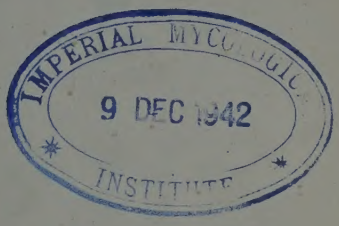
THE

SCIENTIFIC PROCEEDINGS

OF THE

ROYAL DUBLIN SOCIETY.

New Series.



VOLUME 22.

DUBLIN:
PUBLISHED BY THE ROYAL DUBLIN SOCIETY,
BALLSBRIDGE, DUBLIN.
HODGES, FIGGIS, & CO.,
20 NASSAU STREET, DUBLIN.
WILLIAMS & NORGATE,
36 GREAT RUSSELL STREET, STRAND, W.C. 1.
1938–1942.

THE SOCIETY *desires it to be understood that it is not answerable for any opinion, representation of facts, or train of reasoning that may appear in this Volume of its Proceedings. The Authors of the several Memoirs are alone responsible for their contents.*

PRINTED BY PONSONBY AND GIBBS, UNIVERSITY PRESS, DUBLIN.

CONTENTS

VOLUME 22.

NO.		PAGE
1.	Dissemination of Potato Viruses X and F by Leaf Contact. By J. B. Loughnane and Paul A. Murphy.	1
2.	A Study of the Infiltration of Viruses into Seed Potato Stocks in the Field. By Phyllis Clinch, J. B. Loughnane, and Paul A. Murphy.	17
3.	Report of the Irish Radium Committee for the Year 1937. [Including Reports from the City of Dublin Skin and Cancer Hospital (*Radiologist*—Dr. F. O. Pilkington); St. Anne's Hospital, Dublin (*Radiologist*—Dr. Oliver Chance); and by Oliver Chance, M.B., B.CH., D.M.R.E., Richmond, Sir Patrick Dun's, Dr. Steevens', Rotunda, and Coombe Hospitals; and Oswald J. Murphy, M.B., B.CH., St. Vincent's Hospital, Dublin.]	33
4.	On a Recent Bog-flow in the County Wicklow. By G. F. Mitchell. (Plate 1.)	49
5.	Subaqueous Transpiration. By H. H. Dixon, SC.D., F.R.S.	55
6.	The Constitution of Laminarin. Isolation of 2 : 4 : 6-Trimethylglucopyranose. By Vincent C. Barry, M.SC.	59
7.	A Study of the Seasonal Development of the Potato Plant in Relation to Blight Attack and Spraying. By Paul A. Murphy.	69
8.	Atmospheric Pollution in Dublin during the Year 1938. By A. G. G. Leonard and Bridget P. McVerry.	83
9.	The Ovule, Gametophytes, and Proembryo in *Saxegothaea*. By W. J. Looby and J. Doyle. (Plates 2 and 3.)	95
10.	An Apparent Connection between the Presence of Colloids and the Osmotic Pressures of Conifer Leaves. By O. Roberts, M.SC., and S. A. Styles, M.SC.	119
11.	Embryogeny in *Saxegothaea* and its Relation to other Podocarps. By J. Doyle and W. J. Looby.	127
12.	"Studies in Peat." Part 5. Extraction of Peat with Azeotrope-like Petroleum mixed Solvents. By J. Reilly, D. F. Kelly, and J. Duffy.	149
13.	Studies on the Ultimate Composition of Biological Material, Part III.—Glandular Tissues. By Robert Press and William Robert Fearon.	157

NO. PAGE

14. Report of the Irish Radium Committee for the Year 1938. Including Reports from Oswald J. Murphy, M.B., B.CH., St. Vincent's Hospital, Dublin; Oliver Chance, M.B., B.CH., D.M.R.E., Richmond, Sir Patrick Dun's, Dr. Steevens', Rotunda, and Coombe Hospitals; and by St. Anne's Hospital, Dublin (*Radiologist*—Dr. Oliver Chance). 161
15. Leaf Movement on Release of Sap Tension. By HENRY H. DIXON, SC.D., F.R.S., and J. S. BARLEE, B.SC. (Plate 4.) . 175
16. "Studies in Peat." Part 6. The "Water Phase" in Azeotropic Extraction Solvents. By J. REILLY and D. F. KELLY. . 181
17. "Studies in Peat." Part 7. Water Distribution in Peat Wax Azeotropic Extraction Solvents. By J. REILLY, D. F. KELLY, J. DUFFY, and E. COUGHLAN. 187
18. On a Recent Bog-flow in Powerscourt Mountain Townland, Co. Wicklow. By A. D. DELAP and G. F. MITCHELL. . . 195
19. The Chemical Constituents of Lichens found in Ireland. *Lecanora Gangaleoides*—Part 2. By T. J. NOLAN, B.A., D.SC., and J. KEANE, PH.D. 199
20. Further Experiments on Transpiration into a Saturated Atmosphere. By HENRY H. DIXON, SC.D., F.R.S., and J. S. BARLEE, B.SC. (Plate 5.) 211
21. Stabilised Diazo Complexes with Piperazine and other Bases. By P. J. DRUMM, W. F. O'CONNOR, and J. REILLY. . . 223
22. The Requirements of the Pig for Vitamins A and D. By BRENDAN J. SENIOR, M.SC. (Plate 6.) 229
23. The Chemical Constituents of the Lichen *Parmelia Latissima* Fée. By T. J. NOLAN, B.A., D.SC., J. KEANE, PH.D., and V. E. DAVIDSON, B.SC. 237
24. New Observations on the Life-history of *Callitris*. By W. J. LOOBY and J. DOYLE. 241
25. Atmospheric Pollution in Dublin during the Year 1939. By A. G. G. LEONARD, BRIDGET P. MCVERRY, and D. CROWLEY. . 257
26. Studies in Peat. Part 8. Preliminary Note on Irish Peat Wax (Mona Wax). By J. REILLY and J. A. EMLYN. . . 267
27. Report of the Irish Radium Committee for the year 1939. Including Reports from Oswald J. Murphy, M.B., B.CH., St. Vincent's Hospital, Dublin; Oliver Chance, M.B., B.CH., D.M.R.E., Richmond, Sir Patrick Dun's, Dr. Steevens', Rotunda, and Coombe Hospitals; Dr. R. E. Tottenham, City and County Hospital, Londonderry; St. Anne's Hospital, Dublin (*Radiologist*—Dr. Oliver Chance). 273
28. The Production of Santonin from Irish-Grown Artemesia. By PETER J. DRUMM, PH.D., D.SC., and WILLIAM F. O'CONNOR, M.SC. 279

IMPERIAL MYCOLOGICAL INSTITUTE
9 DEC 1942

INDEX

TO VOLUME 22.

Ammonia and Urea, Estimation of, by a modification of the Conway Diffusion Method (E. Kaweraü), 405.

Atkins (W. R. G.). See Poole (H. H.).

Atmosphere, The Evolution of the (J. H. J. Poole), 345.

Atmospheric Pollution in Dublin during the years 1938, 1939, and 1940 (A. G. G. Leonard, B. P. McVerry, and D. Crowley), 83, 257, and 399.

Barlee (J. S.). See Dixon.

Barry (V. C.). The Constitution of Laminarin. Isolation of 2:4:6-Tri-methylglucopyranose, 59.

———— The Hydrolysis of Laminarin. Isolation of a new Glucose Disaccharide, 423.

Biological Material, Studies on the Ultimate Composition of, Part 3. Glandular Tissues (R. Press and W. R. Fearon), 157.

Bog Flow in Co. Wicklow, On a Recent (G. F. Mitchell), 49.

Bog Flow in Powerscourt Mountain Townland, Co. Wicklow, on a Recent (A. D. Delap and G. F. Mitchell), 195.

Boyle Medal, Award of, to Professor J. Reilly, 287.

Callitris, New Observations on the Life-history of (W. J. Looby and J. Doyle), 241.

Chance (O.). Reports of the Irish Radium Committee for the years 1937, 1938, 1939, and 1940, 33, 161, 273, and 431.

Clinch (Phyllis E. M.). A Strain of the Tuber Blotch Virus causing Top Necrosis in Potato, 435.

Clinch (Phyllis E. M.), J. B. Loughnane, and P. A. Murphy. A Study of the Infiltration of Viruses into Seed Potato Stocks in the Field, 17.

Conifer Leaves, An Apparent Connection between the Presence of Colloids and the Osmotic Pressures of (O. Roberts and S. A. Styles), 119.

Coughlin (E.). See Reilly.

Crowley (D.). See Leonard.

Davidson (V. E.). See Nolan.

Delap (A. D.) and G. F. Mitchell. On a Recent Bog Flow in Powerscourt Mountain Townland, Co. Wicklow, 195.

Diazo Complexes with Piperazine and other Bases, Stabilised (P. J. Drumm, W. F. O'Connor, and J. Reilly), 223.

Dixon (H. H.). Subaqueous Transpiration, 55.

———— and J. S. Barlee. Leaf Movement on Release of Sap Tension, 175.

———— Further Experiments on Transpiration into a Saturated Atmosphere, 211.

Donoghue (J. R.). See Reilly.

Doyle (J.) and W. J. Looby. Embryogeny in *Saxegothaea*, and its Relation to other Podocarps, 127.

———— See Looby.

Drumm (P. J.) and W. F. O'Connor. The Production of Santonin from Irish-grown Artemesia, 279.

———— and J. Reilly. Stabilised Diazo Complexes with Piperazine and other Bases, 223.

Duffy (J.). See Reilly.

EMLYN (J. A.) See REILLY.

FEARON (W. R.). The Phenol Amidine Reaction: The Detection of Guanidine, Guanidine Derivatives, and Urea, by Means of Thymol and Hypochlorite, 415.

———— See PRESS.

Goitre Incidence, Soils and Fresh-water Iodine-content in Ireland in Relation to Endemic (J. C. SHEE), 307.

Irish Radium Committee, Reports of the, for the years 1937, 1938, 1939, and 1940, 33, 161, 273, and 431.

KAWERAU (E.). Estimation of Ammonia and Urea by a Modification of the Conway Diffusion Method, 405.

KEANE (J.). See NOLAN.

KELLY (D. F.). See REILLY.

Laminarin, The Constitution of (V. C. BARRY), 59.

Laminarin, The Hydrolysis of. Isolation of a New Glucose Disaccharide (V. C. BARRY), 423.

LEONARD (A. G. G.) and BRIDGET P. MCVERRY. Atmospheric Pollution in Dublin during the Year 1938, 83.

———— and D. CROWLEY. Atmospheric Pollution in Dublin during the Years 1939 and 1940, 257 and 399.

Lichen *Parmelia Latissima* Fée, The Chemical Constituents of the (T. J. NOLAN, J. KEANE, and V. E. DAVIDSON), 237.

Lichens, found in Ireland, The Chemical Constituents of, *Lecanora Gangaleoides*; Part 2 (T. J. NOLAN and J. KEANE), 199.

LOOBY (W. J.) and J. DOYLE. New Observations on the Life-History of *Callitris*, 241.

———— The Ovule, Gametophytes, and Proembryo in *Saxegothaea*, 95.

———— See DOYLE.

LOUGHNANE (J.) and P. A. MURPHY. Dissemination of Potato Viruses X and F by Leaf Contact. 1.

———— See CLINCH.

MCVERRY (BRIDGET P.). See LEONARD.

Milks, A Molecular Constant for Soured, II. Effect of Preservatives (J. J. RYAN and G. T. PYNE), 283.

MITCHELL (G. F.). On a Recent Bog Flow in County Wicklow, 49.

———— See DELAP.

MURPHY (D.). See NOLAN.

MURPHY (O. J.). Reports of the Irish Radium Committee for the years 1937, 1938, 1939, and 1940, 33, 161, 273, and 431.

MURPHY (P. A.). A Study of the Seasonal Development of the Potato Plant in Relation to Blight Attack and Spraying, 69.

———— See CLINCH.

———— See LOUGHNANE.

NOLAN (T. J.) and J. KEANE. The Chemical Constituents of Lichens found in Ireland. *Lecanora Gangaleoides*; Part 2, 199.

———— and V. E. DAVIDSON. The Chemical Constituents of the Lichen *Parmelia Latissima* Fée, 237.

———— and D. MURPHY. The Chlorination of Derivatives of o-Orsellinic Acid, 315.

O'BRIEN (M.). See REILLY.

O'CONNOR (W.). See DRUMM.

o-Orsellinic Acid, The Chlorination of Derivatives of (T. J. NOLAN and D. MURPHY), 315.

Peat, Studies in. Part 5. Extraction of Peat with Azeotrope-like Petroleum mixed Solvents (J. REILLY, D. F. KELLY, and J. DUFFY), 149. Part 6. The "Water Phase" in Azeotrope Extraction Solvents (J. REILLY and D. KELLY), 181. Part 7. Water Distribution in Peat Wax Azeotrope Extraction Solvents (J. REILLY, D. KELLY, J. DUFFY, and E. COUGHLAN), 187. Part 8. Preliminary note on Irish Peat Wax (Mona Wax) (J. REILLY and J. A. EMLYN), 267. Part 9. The Cerotic and Carboceric Acid Fractions of Mona Wax (J. REILLY and J. P. WILSON), 321. Part 10. Activated Charcoal from Peat Residue (J. REILLY and J. R. O'DONOGHUE), 327.

Phenol Amidine Reaction, The: The Detection of Guanidine, Guanidine Derivatives, and Urea, by means of Thymol and Hypochlorite (W. R. Fearon), 415.

Phosphate Ore, Note on the Analysis of an Irish (C. L. Simpson and J. Reilly), 459.

Phosphate Separation in Qualitative Analysis (J. Reilly and M. O'Brien), 447.

Pig, The Requirements of the, for Vitamins A and D (B. J. Senior), 229.

—— The Vitamin D Requirements of the Growing (B. J. Senior), 379.

Poole (H. H.) and W. R. G. Atkins, The Effect of Wave-length on the relation between the Intensity of Illumination and the Current in Selenium Rectifier Photo-Cells, 393.

Poole (J. H. J.). The Evolution of the Atmosphere, 345.

Potato, A Strain of the Tuber Blotch Virus Causing Top Necrosis in (Phyllis E. M. Clinch), 435.

Potato Plant, A Study of the Seasonal Development of, in relation to Blight Attack and Spraying (P. A. Murphy), 69.

Potato Stocks, A Study of the Infiltration of Viruses into Seed in the Field (Phyllis E. M. Clinch, J. B. Loughnane, and P. A. Murphy), 17.

Potato Viruses X and F, Dissemination of by Leaf contact (J. B. Loughnane and P. A. Murphy), 1.

Press (R.) and W. R. Fearon. Studies on the Ultimate Composition of Biological Material. Part 3. Glandular Tissues, 157.

Pyne (G. T.). See Ryan.

Reilly (J.). Award of the Boyle Medal to, 287.

———— and J. A. Emlyn. Studies in Peat. Part 8. Preliminary Note on Irish Peat Wax (Mona Wax), 267.

———— and D. F. Kelly. Studies in Peat. Part 6. The "Water Phase" in Azeotropic Extraction Solvents, 181.

Reilly (J.), D. F. Kelly, and J. Duffy. Studies in Peat. Part 5. Extraction of Peat with Azeotrope-like Petroleum mixed Solvents, 149.

---

and E. Coughlan. Studies in Peat. Part 7. Water Distribution in Peat Wax Azeotropic Extraction Solvents, 187.

———— and M. O'Brien. Phosphate Separation in Qualitative Analysis, 447.

———— and J. R. O'Donoghue. Studies in Peat. Part 10. Activated Charcoal from Peat Residue, 367.

———— and J. P. Wilson. Studies in Peat. Part 9. The Cerotic and Carboceric Acid Fractions of Mona Wax, 321.

———— See Drumm.

———— See Simpson.

Roberts (O.) and S. A. Styles. An Apparent connection between the presence of Colloids and the Osmotic Pressures of Conifer Leaves, 119.

Ryan (J. J.) and G. T. Pyne. A Molecular Constant for Soured Milks. II. Effect of Preservatives, 283.

Salmon of the Ballisodare River. I. History of the Ballisodare Fisheries, 289. II. Age and Growth (A. E. J. Went), 327.

Salmon of the River Erne. Results of the Examination of a small collection of Scales and Data (A. E. J. Went), 471.

Santonin, The Production of, from Irish-Grown Artemesia (P. J. Drumm and W. F. O'Connor), 279.

Sap Tension, Leaf Movement on Release of (H. H. Dixon and J. S. Barlee), 175.

Saxegothaea; The Ovule, Gametophytes, and Proembryo in (W. J. Looby and J. Doyle), 95.

Saxegothaea, Embryogeny in, and its Relation to other Podocarps (W. J. Doyle and W. J. Looby), 127.

Selenious Acid, Studies in the Oxidising Action of. I. Organic Sulphur Compounds (A. E. A. Werner), 387.

Selenium Rectifier Photo-Cells, The Effect of Wave-length on the Relation between the Intensity of Illumination and the Current in (H. H. Poole and W. R. G. Atkins), 393.

Senior (B. J.). The Requirements of the Pig for Vitamins A and D, 229.

———— The Vitamin D Requirements of the Growing Pig, 379.

Shee (J. C.). Soils and Fresh-water Iodine Content in Ireland in Relation to Endemic Goitre Incidence, 307.

Simpson (C. L.) and J. Reilly. Note on the Analysis of an Irish Phosphate Ore, 459.

Styles (S. A.). See Roberts.

Tottenham (R. E.). Reports of the Irish Radium Committee for the years 1939 and 1940, 273 and 431.

Transpiration into a Saturated Atmosphere, Further Experiments on (H. H. Dixon and J. S. Barlee), 211.

Transpiration, Subaqueous (H. H. Dixon), 55.

Went (A. E. J.). Salmon of the Ballisodare River. I. History of the Ballisodare Fisheries, 289. II. Age and Growth, 327.

———— Salmon of the River Erne. Results of the Examination of a small collection of Scales and Data, 471.

Werner (A. E. A.). Studies on the Oxidising Action of Selenious Acid. I. Organic Sulphur Compounds, 387.

Wilson (J. P.). See Reilly.

NO. PAGE

29. A Molecular Constant for Soured Milk. II. Effect of Preservatives. By J. J. RYAN and G. T. PYNE. . . . 283
30. Award of the Boyle Medal to Professor Joseph Reilly. . . 287
31. Salmon of the Ballisodare River. I.—History of the Ballisodare Fishery. By ARTHUR E. J. WENT. (Plate 7.) . . . 289
32. Soils and Fresh-water Iodine-Content in Ireland in Relation to Endemic Goitre Incidence. By JAMES C. SHEE. . . 307
33. The Chlorination of Derivatives of o-Orsellinic Acid. By T. J. NOLAN, B.A., D.SC., and D. MURPHY, M.SC. . . . 315
34. "Studies in Peat." Part 9. The Cerotic and Carboceric Acid Fractions of Mona Wax. By PROFESSOR J. REILLY and JOHN P. WILSON, M.SC. 321
35. Salmon of the Ballisodare River. II.—Age and Growth. By ARTHUR E. J. WENT. 327
36. The Evolution of the Atmosphere. By J. H. J. POOLE, SC.D. . 345
37. Studies in Peat. Part 10. Activated Charcoals from Peat Residue. By JOSEPH REILLY, D.SC., and JAMES R. O'DONOGHUE, M.SC. 367
38. The Vitamin D Requirements of the Growing Pig. By BRENDAN J. SENIOR, M.SC. 379
39. Studies on the Oxidising Action of Selenious Acid. I. Organic Sulphur Compounds. By A. E. A. WERNER. . . . 387
40. The Effect of Wave-length on the Relation between the Intensity of Illumination and the Current in Selenium Rectifier Photo-Cells. By H. H. POOLE and W. R. G. ATKINS, F.R.S. . . 393
41. Atmospheric Pollution in Dublin during the Year 1940. By A. G. G. LEONARD, BRIDGET P. MCVERRY, and D. CROWLEY. . 399
42. Estimation of Ammonia and Urea by a Modification of the Conway Diffusion Method. By EINHART KAWERAU, M.B., B.CH. 405
43. The Phenol Amidine Reaction: The Detection of Guanidine, Guanidine Derivatives, and Urea, by Means of Thymol and Hypochlorite. By WILLIAM ROBERT FEARON. . . . 415
44. The Hydrolysis of Laminarin. Isolation of a New Glucose Disaccharide. By VINCENT C. BARRY, D.SC. . . . 423
45. Report of the Irish Radium Committee for the Year 1940. Including Reports from Oswald J. Murphy, M.B., B.CH., St. Vincent's Hospital, Dublin; Oliver Chance, M.B., B.CH., D.M.R.E., Richmond, Sir Patrick Dun's, Dr. Steevens', Rotunda, and Coombe Hospitals; R. E. Tottenham, M.D., B.CH., B.A.O., City and County Hospital, Londonderry; St. Anne's Hospital, Dublin (*Radiologist*—Dr. Oliver Chance); and St. John's Hospital, Limerick (*Radiologist*—H. G. Roche Kelly, M.D., D.P.H.). 431

NO. PAGE

46. A Strain of the Tuber Blotch Virus causing Top Necrosis in Potato. By PHYLLIS E. M. CLINCH. (Plate 8.) . . 435
47. Phosphate Separation in Qualitative Analysis. By PROFESSOR J. REILLY and M. O'BRIEN, M.SC. 447
48. Note on the Analysis of an Irish Phosphate Ore. By C. L. SIMPSON, M.SC., and J. REILLY, M.A., D.SC., F.I.C. . . 459
49. Salmon of the River Erne. Results of the Examination of a small collection of Scales and Data. By ARTHUR E. J. WENT. 471
